House for Rent.

Good house and lot for rent. For
particulars enquire of W. H. Pontius,
South Side.

Runaway.

Jacob Cramer had quite a runaway
last Sunday morning. He, with his
wife and child were driving on Scott
street in a cart, and when near the
street the horse shied and started to
run. One wheel of the cart broke,
throwing the three occupants out.
Mr. Cramer and the child escaped
with only a good shaking up, while
his wife was considerably bruised and
hurt about the head and face.

Sad Death.

Little Teresa, daughter of Mr. and
Mrs. Conrad Miller, died May 14th,
1894, of membranous croup, aged 2
years, 5 months and 13 days. Little
Teresa was the idol of Mr. Miller's
family, and of all who knew her. She
leaves a father, mother, brother and
two small sisters to mourn her de-
parture. The funeral took place
from St. Augustine's church yester-
day morning, Rev. Fr. Puetz officiat-
ing.

Judicial Convention.

The Circuit Judicial committee met
in Lima on Monday for the purpose
of selecting a time and place for hold-
ing the Judicial Convention. The
committee in the district were all
represented with the exception of Van
Wert. The convention was set for the
14th day of June, and Lima was
chosen as the place. Henry county
will be entitled to 33 delegates on
the Cleveland vote of 1892, which
vote will regulate the ratio.

Drove a Horse to Death.

Os. Bade and Tad Haly hired a
fine team of horses of Chas. Van Hy-
ning last Sunday morning for the
purpose of driving to Stryker. Instead
of that the boys made for Bryan and
Defiance, starting on the return drive
early Sunday evening. When just on
this side of Defiance one of the
horses dropped over and expired in a
few minutes.

The case was clearly one of too
much hard driving, as the remaining
horse is in a bad condition from the
treatment received. The team was
a fine pair of bays, and such an act
of cruelty ought not to be quietly
ignored by the authorities—some one
should be taught a lesson.

**Memorial Day Observance in Harri-
son Township.**

The memorial sermon will be
preached at the Sharon M. E. Church
in Harrison township, on Sunday,
May 17th, 1894, at 4 o'clock p. m., by
Rev. M. L. Donahay, of Napoleon.

Decorations services at the same
place on the 30th, commencing at 10
o'clock a. m.

A service will be held in the grove
near the church, on Tuesday June 5th,
commencing at 10 o'clock a. m. Good
speakers will be present. Comrade
Kahl, of Napoleon, will be orator of
the day. Everybody invited.

Z. KINNEY, Adj't.

Death of Mrs. Frank Walker.

After a lingering illness from con-
sumption, death came to the relief of
Mrs. Emma A. Walker, wife of Frank
Walker, early on the morning of the
15th. Mrs. Walker was aged 39 years,
5 months and 29 days, and was an
affectionate husband and a family of
seven children to mourn their irre-
parable loss. She was a lady be-
loved by those of her acquaintance,
and was a devoted and indulgent
mother. The funeral services were
held at the Presbyterian church
Wednesday afternoon, Rev. Donahay
officiating.

Farming by Irrigation.

The farmer who runs water over his
lands has rain when the sun
shines, has moisture for his crops
when needed and in quantity to suit.
It is practical and successful farming.
It is the true method. There is no
failure, and no more returns to the
acre. Large areas of wonderfully
fertile land in Montana and Wash-
ington are already under ditch, and
can be had at moderate prices. Gov-
ernment land can be easily taken up
and easily and cheaply watered.
Fine chances for investment in canal
enterprises. Write to F. I. Whitney,
Geo. P. & T. A. G. N. Ry., St. Paul,
Minn., for information.

When to Paint.

The best time to paint in order to
get the best service from the material
used, is when there is no dust, no
flies and the weather is not too hot.
Such a time we now have and will
continue to have for the next 40 or 50
days. This, also, is a good time to
buy your oils and paints, for the rea-
son that Saur & Baisley are offering
them as low, if not lower than you
will find them at any time during the
balance of the year. They carry a
very large stock at this season, and
are anxious to reduce it as much as
possible. Every pound of paint sold
by this house is guaranteed to be
strictly as represented, that it will not
scale or peel off, but, make a finish
hard as stone, and glossy as if freshly
varnished by the best coach varnish.
Their oil is guaranteed to be strictly
pure linseed oil, fresh from the oil
mills.

Letter List.

WATERWORKS

538 YES

The above figures tell the story of
the special election held on Monday
last, when for the fourth time our
citizens were required to record their
expression upon the waterworks
question.

A full vote was cast and the result
was most decisive, the vote recording
538 in favor of the proposed improve-
ment to only 93 against. The total
number of votes cast was 637—six of
which were irregular and not count-
ed by the Judges.

The result of the election is most
gratifying, especially so to those citi-
zens who wish to see Napoleon pro-
gress, and, indeed, now that the con-
flict is over, it is hard to find a man
who will acknowledge that he is op-
posed to waterworks and electric
light.

The people have spoken in no un-
certain tone, and it now only remains
for their chosen servants to do the
rest.

That they will do their duty, there
is no question.

BIG GAS WELL.

**Fosteria All Excitement Over a Big
Producer.**

FOSTERIA, O., May 15.—The largest
gas well in the Ohio or Indiana fields
was drilled in on the Wallace farm,
three miles west of Fosteria yester-
day. The lease is owned by the Chi-
cago Oil company, and the well was
started last week in territory which
was considered worthless.

It came in at 4 o'clock and when the
tools were thrown out the workmen
had to run for their lives. The drill
stem and rope were blown fully 500
feet. The well is estimated at 50,000-
100,000 feet of gas per day, the largest
well on earth.

The gas caught fire from the force,
and the derrick has been burned to
the ground. The woods are blazing in
many places, and flames can be seen
shooting up 100 feet above the free-
tops. One curious feature is that in
more than 100 places water is spout-
ing through the ground to a height
of ten to twenty feet.

We want to close out our line of
pure silk grenadines, and have out
the price just half in two; now is
your chance as they are choicestyles.
See them at George H. Rohrs &
Bro's.

\$15,000.00!

COURT HOUSE AND JAIL BONDS

Wiped Out by the County
Commissioners on Monday.

The county Commissioners did a
commendable act on Monday, when
they redeemed \$15,000 worth of the
court house and jail bonds, thus put-
ting into execution a promise made
to the people that this debt was to be
diminished. This will be welcome
news to the citizens of Henry county,
and all who congratulate the county
commissioners and Auditor Reish upon
their successful efforts to curtail the
county debt. These officials have
struck the right and logical way of
paying off the debt—by blocks or in-
stalments. To give the reader an
idea of the action of the commission-
ers in the matter, the journal entry is
reproduced, as follows:

In the matter of the redemption of
fifteen (15) of the series of one
hundred (100) court house, jail and
sheriff's mortgage 4 per cent. bonds,
\$1000 each, due July 1st, A. D., 1905.

PREAMBLE AND RESOLUTION.

This matter being under considera-
tion, and it appearing to the board,
that in response to an inquiry made
by J. C. Saur, banker, at the request
of this board, in reference to the
above styled matter, fifteen (15) of
the above named series of bonds (15)
can be obtained for redemption May 14th,
1894, at a premium of \$375, and where-
as the purchase of said bonds at this
time, at said premium, including all
expenses, brokerage and express
charges would cost the taxpayers the
sum of \$3,337.50 less money than to
pay the same when redeemable A. D.,
1905, as nominated in said bonds,
and the sum of \$3,337.50 less money
than to pay the same when legally
due A. D., 1905, and at the same time
relieve the sinking fund of a surplus
of idle money now on hand, and not
needed to meet any of its legal obli-
gations, at this time, and whereas
the board desires to relieve the tax-
payers from the payment of all un-
necessary interest on the bonded
debt of the county of every kind
and pay the same as soon as possible,
and with the lowest average annual
levy. Therefore, on motion of D.
T. Burr, properly seconded by M.
Reiser, the following resolution was
offered for adoption, to-wit: Be it
resolved by the board of commission-
ers of Henry county, Ohio, in session
assembled, that the auditor be and
he is hereby ordered and directed
to issue his warrant on the treasurer
of Henry county, for the sum of
fifteen thousand, six hundred and
sixty-two and 34-100 dollars (\$15,662-
34), to be paid out of the sinking
fund of said county, in full pay-
ment of said bonds, accrued interest,
premium, brokerage and express
charges.

The above resolution was passed
by the following vote, to-wit:
Yeas, D. T. Burr, M. Reiser and
Levi King.
Nays, none.

CLOVER WEEVEL.

**ITS RAVAGES LIKELY TO GIVE
FARMERS MUCH TROUBLE.**

The Ohio agricultural experiment
station has issued bulletin No. 139,
which gives the following valuable
information in regard to the clover
leaf weevil, which has made its ap-
pearance in the State.

This is a comparatively new pest
of the clover, here in Ohio, and has
recently been reported to the Ohio
agricultural experiment station from
many localities in Ohio. It has been
at work in the clover fields of New
York for several years, and has in
that time been gradually pushing its
way westward. The following de-
scriptions are taken from a report of
Prof. Lintner, state entomologist of
New York:

DESCRIPTION OF THE BEETLE.

"The beetle measures over four-
tenths of an inch in length, is of an
oval form, and of a brown color,
which is paler over the four rows of
punctures on the sides, and some-
times upon the sutural line. The
beak is rather short, broad and blunt.
The thorax is smooth, elevated, trav-
ersed by three pale lines. Both it
and the wing-covers are clothed
with short yellowish-brown hairs,
and upon the ridge of the latter are
arranged a number of black scale
tufts.

The egg is elongate-oval, about
twice as long as wide, pale yellow,
and smooth when first laid, but be-
coming greenish-yellow, and rough-
ened with hexagonal depressions,
before hatching. In most cases the
larva has hatched in about one week
from the time when the egg was laid.
The young larva is pale, with a dark
head, but subsequently becomes
greenish with a distinct whitish
medio-dorsal line relieved by darker
shades each side. The body is deep-
ly wrinkled with prominent sub-
stigmatal and ventral swellings, the
latter so well developed and so exten-
sive that they perform the functions
of prolegs, giving the larva its strong
resemblance to those of the sawflies,
and enabling it to easily crawl or
clasp the edge of a leaf. When at
rest it clings sideways and in a
curved position to the leaf, usually
on the underside, grasping the leaf-
hairs between the ventral swellings,
but especially in the transverse fold
of the anus, by which it can hold
and swing the whole body about."

REMEDIES AND NATURAL CHECKS.

The pest is not easily reached by
insecticides, where these are prac-
ticable, though it is very probable
that powdered pyrethrum mixed
with low grade kerosene, one pound
of the powder to 10 of oil, and allowed
to stand in a tight cask or other
receptacle for 24 hours and then
dusted lightly over the fields, will
kill all of the worms that it touches,
and not injure the clover. Rolling
the fields with a heavy roller will
crush many, as will the dragging of
a heavy rope over the ground by
hitching a horse to each end and
walking them abreast at a distance
from each other, allowing the rope

to bow or sag in the middle.
A fungoid disease has broken out
among these worms, in some locali-
ties, which is contagious as cholera,
and is sweeping them off in myriads.
So efficient is this disease in keeping
the pest in check, that it is not likely
that this clover pest will work its
destruction for more than a year in
the same locality, and even there is
not likely to kill the plants.

Died.

PUTT.—In Napoleon, O., Thursday
morning, May 10th, 1894, at nine
o'clock a. m., Eliza J., oldest daugh-
ter of Mary A. Putt, aged 53 years.

BUTLER.—On May 7th, 1894, near
Hamlet, Henry county, O., Wilda,
the little son of Leonard and Mary
Butler, aged three years and twenty
seven days. Funeral services were
held at the Murray Church, Tuesday,
May 8th, at 10 o'clock p. m. Rev. E.
Towel, of Belmore, officiating.
The remains were interred in the Leipsic
cemetery. The death of this little
boy was sudden, being sick only four
days with catarrhal fever. Wilda is
gone but not forgotten. This little
bud has closed on earth but will
bloom in Heaven; "for of such is
the kingdom of Heaven." The grief
stricken family have the sympathy of
the entire neighborhood in their hour
of great affliction.

and transients in way of horse care.

A WATERY GRAVE

**Was that Chosen by Miss Eliza Jane
Putt to End Her Earthly
Sufferings.**

Last Thursday morning Eliza Jane
Putt, oldest daughter of Mary A.
Putt, put an end to her earthly suf-
ferings by jumping into a cistern and
drowning herself. The cause that
led to this rash act of self-destruction
was her long siege of ailments, for
which no relief could be obtained—
one of which was a life-long affliction
of St. Vitus Dance, and for the past
two years she was a sufferer of a com-
plication of diseases which baffled all
medical science. This she prayed up-
on her that at times her mind became
deranged and a careful watch of her
was at all times necessary lest she
would do herself bodily harm—her
mind continually being on self-de-
struction.

On Sunday, previous to
